

Fold-It Books (McCloskey, 1999)

Below are instructions for making a Fold-It Book. You and your students can make these from paper that is used on one side, as the used side will be inside the fold.

8-Page Fold-It Book	
<p>1. Fold paper 3 times.</p> 	<p>2. Open. Fold like a hamburger. Cut halfway in from the fold side.</p> 
<p>3. Open and re-fold like a hot dog.</p> 	<p>4. Push the ends together so the middle comes out.</p> 
<p>5. Pages will look like this.</p> 	<p>6. Write and draw in your book.</p> 

Now students can write a story with 6 parts. They can also illustrate their little book. Reading the book out loud to other students reinforces reading skills. Make a whole library of little readers.
